Research outputs

Network-Based Clustering for Varying Coefficient Panel Data Models

Pei, Y., Huang, T., Peng, H. & You, J., 3 Apr 2022, In: Journal of Business and Economic Statistics. 40, 2, p. 578-594 17 p.

Cluster analysis with regression of non-Gaussian functional data on covariates

Jiang, J., Lin, H., Peng, H., Fan, G. Z. & Li, Y., Mar 2022, In: Canadian Journal of Statistics. 50, 1, p. 221-240 20 p.

A new type of robust designs for chemometrics and computer experiments

Fang, K. T., Lin, Y. & Peng, H., 15 Feb 2022, In: Chemometrics and Intelligent Laboratory Systems. 221, 104474.

Fast inference for semi-varying coefficient models via local averaging

Peng, H., Xie, C. & Zhao, J., May 2021, In: Computational Statistics and Data Analysis. 157, 107126.

Varying-coefficient Panel Data Model With Interactive Fixed Effects

Feng, S., Li, G., Peng, H. & Tong, T., Apr 2021, In: Statistica Sinica. 31, 2, p. 935-957 23 p.

Estimation and hypothesis test for partial linear single-index multiplicative models

Zhang, J., Cui, X. & Peng, H., Jun 2020, In: Annals of the Institute of Statistical Mathematics. 72, 3, p. 699-740 42 p.

MR-LDP: a two-sample Mendelian randomization for GWAS summary statistics accounting for linkage disequilibrium and horizontal pleiotropy

Cheng, Q., Yang, Y., Shi, X., Yeung, K. F., Yang, C., Peng, H. & Liu, J., Jun 2020, In: NAR Genomics and Bioinformatics. 2, 2, lqaa028.

BIVAS: A Scalable Bayesian Method for Bi-Level Variable Selection With Applications

Cai, M., Dai, M., Ming, J., PENG, H., Liu, J. & YANG, C., 2 Jan 2020, In: Journal of Computational and Graphical Statistics. 29, 1, p. 40-52 13 p.

Fine-Gray proportional subdistribution hazards model for competing risks data under length-biased sampling

Zhang, F., Peng, H. & Zhou, Y., Jan 2019, In: Statistics and its Interface. 12, 1, p. 107-122 16 p.

Estimation and hypothesis test for partial linear multiplicative models

Zhang, J., Feng, Z. & Peng, H., Dec 2018, In: Computational Statistics and Data Analysis. 128, p. 87-103 17 p.

Bias reduction for nonparametric and semiparametric regression models

Cheng, M-Y., Huang, T., Liu, P. & Peng, H., Oct 2018, In: Statistica Sinica. 28, 4, p. 2749-2770 22 p.

Unsupervised learning of mixture regression models for longitudinal data

Xu, P., Peng, H. & Huang, T., Sep 2018, In: Computational Statistics and Data Analysis. 125, p. 44-56 13 p.

Variance estimation for semiparametric regression models by local averaging

Zhao, J., Peng, H. & Huang, T., Jun 2018, In: *Test*. 27, 2, p. 453-476 24 p.

Estimation of partially linear regression models under the partial consistency property

Cui, X., Lu, Y. & Peng, H., Nov 2017, In: *Computational Statistics and Data Analysis*. 115, p. 103-121 19 p.

Ubiquitous blood pressure monitoring using EEG and PPG signals

Lu, Y., PENG, H., Zhao, J., Deng, Z., Huang, Z., Zhang, J., Deng, J., Wang, Z. & Wei, C., 11 Sep 2017, *UbiComp/ISWC 2017 - Adjunct Proceedings of the 2017 ACM International Joint Conference on Pervasive and Ubiquitous Computing and Proceedings of the 2017 ACM International Symposium on Wearable Computers*. Association for Computing Machinery (ACM), p. 257-260 4 p. (UbiComp/ISWC 2017 - Adjunct Proceedings of the 2017 ACM International Joint Conference on Pervasive and Ubiquitous Computing and Proceedings of the 2017 ACM International Symposium on Wearable Computers).

Optimal designs for additive mixture model with heteroscedastic errors

Yan, F., Zhang, C. & Peng, H., 3 Jul 2017, In: *Communications in Statistics - Theory and Methods*. 46, 13, p. 6401-6411 11 p.

Model selection for Gaussian mixture models

Huang, T., Peng, H. & Zhang, K., Jan 2017, In: *Statistica Sinica*. 27, 1, p. 147-169 23 p.

Composite partial likelihood estimation for length-biased and right-censored data with competing risks

Zhang, F., Peng, H. & Zhou, Y., Jul 2016, In: *Journal of Multivariate Analysis*. 149, p. 160-176 17 p.

Variable Selection for Semiparametric Partially Linear Covariate-Adjusted Regression Models

Du, J., Li, G. & PENG, H., 3 Jul 2015, In: *Communications in Statistics - Theory and Methods*. 44, 13, p. 2809-2826 18 p.

Variable selection for fixed effects varying coefficient models

Li, G. R., Lian, H., Lai, P. & PENG, H., Jan 2015, In: *Acta Mathematica Sinica, English Series*. 31, 1, p. 91-110 20 p.

Nonparametric independence screening and structure identification for ultra-high dimensional longitudinal data

CHENG, M-Y., Honda, T., Li, J. & PENG, H., 1 Oct 2014, In: *Annals of Statistics*. 42, 5, p. 1819-1849 31 p.

Empirical likelihood of varying coefficient errors-in-variables models with longitudinal data

Yang, Y., Li, G. & PENG, H., May 2014, In: *Journal of Multivariate Analysis*. 127, p. 1-18 18 p.

Simultaneous confidence bands and hypothesis testing for single-index models

Li, G., PENG, H., Dong, K. & TONG, T., 1 Apr 2014, In: *Statistica Sinica*. 24, 2, p. 937-955 19 p.

PDGF, NT-3 and IGF-2 in combination induced transdifferentiation of muscle-derived stem cells into Schwann cell-like cells

Tang, Y., He, H., Cheng, N., Song, Y., Ding, W., Zhang, Y., Zhang, W., Zhang, J., PENG, H. & Jiang, H., 14 Jan 2014, In: *PLoS ONE*. 9, 1, e73402.

Tail probability ratios of normal and students t distributions

TONG, T. & PENG, H., 2014, In: *Communications in Statistics - Theory and Methods*. 43, 18, p. 3797-3811 15 p.

Component selection in the additive regression model

Cui, X., PENG, H., Wen, S. & ZHU, L., Sep 2013, In: *Scandinavian Journal of Statistics*. 40, 3, p. 491-510 20 p.

Dimension reduction and predictor selection in semiparametric models

Yu, Z., Zhu, L., PENG, H. & ZHU, L., Sep 2013, In: *Biometrika*. 100, 3, p. 641-654 14 p.

Simultaneous confidence band for nonparametric fixed effects panel data models

Li, G., PENG, H. & TONG, T., Jun 2013, In: Economics Letters. 119, 3, p. 229-232 4 p.

The connection between cross-validation and Akaike information criterion in a semiparametric family

PENG, H., Yan, H. & Zhang, W., Jun 2013, In: Journal of Nonparametric Statistics. 25, 2, p. 475-485 11 p.

Smoothed rank correlation of the linear transformation regression model

Lin, H. & PENG, H., Jan 2013, In: Computational Statistics and Data Analysis. 57, 1, p. 615-630 16 p.

Model selection in linear mixed effect models

PENG, H. & Lu, Y., Aug 2012, In: Journal of Multivariate Analysis. 109, p. 109-129 21 p.

D-optimal designs for quadratic mixture canonical polynomials with spline

Zhang, C. & PENG, H., Jun 2012, In: Statistics and Probability Letters. 82, 6, p. 1095-1101 7 p.

Dual-objective optimal mixture designs

Zhang, C., Wong, W. & PENG, H., Jun 2012, In: Australian and New Zealand Journal of Statistics. 54, 2, p. 211-222 12 p.

Robust rank correlation based screening

Li, G., PENG, H., Zhang, J. & Zhu, L., Jun 2012, In: Annals of Statistics. 40, 3, p. 1846-1877 32 p.

Selection and combination of biomarkers using ROC method for disease classification and prediction

Lin, H., Zhou, L., PENG, H. & Zhou, X. H., Jun 2011, In: Canadian Journal of Statistics. 39, 2, p. 324-343 20 p.

Penalized least squares for single index models

PENG, H. & Huang, T., Apr 2011, In: Journal of Statistical Planning and Inference. 141, 4, p. 1362-1379 18 p.

A profile-type smoothed score function for a varying coefficient partially linear model

Li, G., Feng, S. & PENG, H., Feb 2011, In: Journal of Multivariate Analysis. 102, 2, p. 372-385 14 p.

Nonconcave penalized M-estimation with a diverging number of parameters

Li, G., PENG, H. & ZHU, L., Jan 2011, In: Statistica Sinica. 21, 1, p. 391-419 29 p.

Simultaneous confidence band and hypothesis test in generalised varying-coefficient models

Zhang, W. & PENG, H., Aug 2010, In: Journal of Multivariate Analysis. 101, 7, p. 1656-1680 25 p.

Two samples tests for functional data

Zhang, C., PENG, H. & Zhang, J. T., Jan 2010, In: Communications in Statistics - Theory and Methods. 39, 4, p. 559-578 20 p.

Cancer patients' attitudes towards Chinese medicine: A Hong Kong survey

Lam, Y. C., Cheng, C. W., PENG, H., Law, C. K., Huang, X. & BIAN, Z., 30 Dec 2009, In: Chinese Medicine. 4, 25.

ICA with sparse connections: Revisited

Zhang, K., PENG, H., Chan, L. & Hyvarinen, A., 2009, In: Lecture Notes in Computer Science. 5441, p. 195-202 8 p.

Nonparametric transition-based tests for jump diffusions

Aït-Sahalia, Y., Fan, J. & PENG, H., 2009, In: Journal of the American Statistical Association. 104, 487, p. 1102-1116 15 p.

Nonparametric estimation for contamination distribution

Hui, J., Miao, B. Q., Ning, J. & PENG, H., Jun 2008, In: Applied Mathematics. 23, 2, p. 175-182 8 p.

On sliced inverse regression with high-dimensional covariates

ZHU, L., Miao, B. & PENG, H., Jun 2006, In: Journal of the American Statistical Association. 101, 474, p. 630-643 14 p.

Nonconcave penalized likelihood with a diverging number of parameters

Fan, J. & Peng, H., Jun 2004, In: Annals of Statistics. 32, 3, p. 928-961 34 p.
